PROJECTS

Full Stack Projects

Chat App Development

Engineered a real-time chat app with **React Native** and **Firebase**, integrating user authentication, secure message storage, and data handling. Designed to enhance user engagement with a responsive UI and efficient data processing, the app underscores expertise in mobile development and backend integration, showcasing proficiency in cross-platform functionality.

Web Applications

- Developed a series of interactive, UI-friendly web applications: **Recipe Book**, **Quiz App**, **Real Estate App**, **Car Rental**, and **Job Board**. Each project incorporates the **Unsplash API** for dynamic background images, delivering visually engaging and responsive designs.

Tech Stack: HTML, CSS, JavaScript

[Recipe Book](#) | [Quiz App](#) | [Real Estate App](#) | [Car Rental](#) | [Job Board](#)

EXPERIENCE

Android App Developer(Kotlin)

04/2024 - 06/2024

EduSkills Foundation

- Integrated** third-party APIs, increasing app **functionality** by 30% and **improving** user experience by 25%.
- Optimized** API calls and devised robust caching mechanisms, **reducing** response times by 40% and boosting **performance** by 35%.
- Collaborated** with the development team to eliminate over 500 bugs, **resulting** in a 20% reduction in crashes and a 15% uplift in user satisfaction.
- Followed clean coding standards, improving code maintainability by 20% and accelerating development processes by 10%.

Full Stack Developer Intern

7/2024 - 08/2024

Bharat Internz

- Spearheaded the implementation of advanced encryption protocols and two-factor authentication across all user accounts, resulting in a 25% reduction in the risk of potential data breaches and enhancing overall security.
- Designed a Content Management System (CMS), streamlining content production and increasing efficiency by 30%.
- Established security protocols to safeguard user data, reducing the risk of data breaches by 25%.
- Developed a Project Management System (PMS), improving project planning and completion rates by 15%, while integrating real-time chat functionality to improve team communication, cutting turnaround times by 50%.

Beta/User App Testing Intern

05/2022 - 07/2022

Hu Touch

- Directed targeted user testing, uncovering 20 critical bugs, which improved app stability by 10% and raised user satisfaction by 15%.
- Prioritized user feedback and addressed key issues within a week, advancing app usability by 20%.
- Created a feedback analysis tool, enabling data-driven decisions that accelerated product development efficiency by 25%.
- Produced 80% of the code logic for common use cases, expediting the development process by 15%.

EDUCATION

Computer Science & Engineering

08/2020 - 04/2024

Rashtrasant Tukdoji Maharaj University of Nagpur – Batchelor's Degree

7.09 CGPA

SKILLS

Languages & Libraries : Java | SQL | HTML | CSS | JavaScript | React | Kotlin | Python | Bootstrap | Tailwind CSS | PHP | Next.js |

Tools & Software: VS Code | GitHub | MySql | Android Studio | Arduinio IDE |

Others : UI/UX | SEO | Content Writing | Blockchain | Cryptography | Machin Learning| Cloud Development

Soft Skills: Creative Thinking | Decision making | Management Achievements|

Certifications

Udemy : Android App Devlopment MobDevOps | Mastering Langchain and AWS | MySql Database Development Mastery | Machine Learning |

Sololearn : Java | HTML | Python Core | C |

Forge : Microsoft - Go-To-Market: Undergraduate & Masters Asia Virtual Experience Program Job Simulation | Data Analytics and Visualization Job Simulation

Hobbies

Reading books (mostly Self Help) | Travelling | Photography | Calligraphy |
